ANNUAL OPERATING BUDGET IMPACT (\$000)

DESCRIPTION

This project provides for right-of-way acquisition and construction of a sidewalk along the south side of Olney-Sandy Spring Road between Norwood Road and east of Meetinghouse Road for approximately 954 feet and along the east side of Norwood Road for approximately 290 feet south of the intersection with Olney-Sandy Spring Road. The project includes improvements to the existing storm drainage system along Norwood Road and MD 108. Impacts to pedestrians, bicycles and ADA (Americans with Disabilities Act of 1991) are performed and addressed by this project. Traffic signals, streetlights, crosswalks, bus stops, ADA ramps, bikeways and other pertinent issues have been considered in the design of the project to ensure pedestrian safety.

JUSTIFICATION

The construction of this sidewalk is supported by the Maryland State Highway Administration. This project increases pedestrian safety by providing a connection to existing sidewalks and facilitates safe pedestrian access to Sherwood High School, public transportation and nearby shopping.

Plans and Studies

This project was designed under the Annual Sidewalk Program. This project will provide funding to complete the sidewalk construction and right-of-way acquisition that exceeds the funding limits of the Annual Sidewalk Program. Traffic signals, streetlights, crosswalks, bus stops, ADA ramps, bikeways and other pertinent issues have been considered in the design of the project to ensure pedestrian safety.

Cost Change

Not applicable

STATUS

Final design stage.

OTHER

Intergovernmental funding includes \$33,000 for WSSC's contribution for utility relocation costs.
